1/ Total land available for crops minus wild hay acreage.

2/ Includes the following acreages of mountain meadow land in States with combined programs:
 are combined.

3/ Includes the following acreages of mountain meadow land in States with combined programs:
 Montana, 204,160; Nevada, 211,917; Wyoming, 245,435.

1/ Official allotments established for the State.

2/ Sum of acreages allotted.

3/ Excludes sugar beets and commercial vegetables, and includes summer fallow acreage in Idaho, Oregon, Washington, and Utah.

1/ Percent of allotments shown in Table VI.

2/ In Area B includes acreage of soil-depleting crops for which no special allotments were established.

3/ Estimated in Washington office to include acreage of soil-depleting crops for which no special allotments were established.

4/ Excludes sugar beets and commercial vegetables. Figures for New Mexico and Wyoming include Area B because only State data available in Washington Office.

Western Region	86	88	85	89	91	77	68	94	xxx

1/ Based on acreages planted on all participation farms in the commercial counties.

2/ Includes pump, beet, and commercial vegetables. Figures for New Mexico and Wyoming include area 4 because only State data available in Washington office.

3/ Non-allotment option was exercised by some operators. This caused the planted wheat acreage to be greater than the wheat allotment.

State	Cropland	Total Soil-Depleting Allotment		Total Soil-Depleting Crops Planted

- 1/ Pounds of P₂O₅. 48 pounds equal 300 pounds of 16% superphosphate.
- 2/ Pounds of potash. 75 pounds equals 150 pounds of 50% muriate of potash.
- 3/ Pounds of sulphur. 34 pounds equals 300 pounds of granular containing 88% sulphur.
- 4/ Only for States where farm and range programs are combined. Acreage is also included in practice (R-a).
- 5/ Total number of equivalent soil-building units divided by number of farms on which one or more soil-building practices were carried out.
- 6/ Estimated in Washington office.
- 7/ Includes practices in non-farm program area where allotment payments were received for soil-building practices.

✓ Estimated in Washington Office.

✓ Includes 4 silt traps and 2 silt barriers

✓ Includes repairing springs.

✓ Includes gully control.

Includes supplemental feeding, diversion ditches, dammed channels, pasturing mountain meadows, cattle guards, protection of permanent hay land, water conservation, salinizing, shelter sheds, cattle passes, and manure tanks.
